AI AS A SERVICE

FRONTIER LLM TRAINING & INFERENCE

NVIDIA H200 Server · 141 GB

Hopper-class compute with HBM3e — 4.8 TB/s memory bandwidth and a Transformer Engine built for 70B-class models. The premium training and large-context inference tier, in our Tier III+ Amsterdam datacenter.

TECHNICAL SPECIFICATIONS

Built for 70B+ models and long context

The NVIDIA H200 delivers 141 GB of HBM3e at 4.8 TB/s — eliminating the model-parallelism overhead that bottlenecks H100s on large LLMs. Native FP8 via the Transformer Engine doubles training throughput on transformer architectures, and the 141 GB capacity fits 70B-class models on a single GPU without splitting.

GPU	NVIDIA H200 (Hopper) — 141 GB HBM3e, 4.8 TB/s bandwidth, NVLink
Processor	AMD EPYC 9534 (64-Core Genoa architecture)
Storage	NVMe SSD — 1 TB included, expandable
Network	10 Gbps vPort — unmetered (fair use applies)
Precision	FP64, TF32, BF16, FP16, FP8, INT8 — Transformer Engine
Location	Tier III+ Datacenter, Amsterdam Region — Netherlands

CONFIGURATIONS & PRICING

Choose your tier

All tiers include the same NVIDIA H200 141 GB GPU. Scale your vCPU cores and system RAM by selecting the tier that fits your training or inference workload.

Tier	vCPU Cores	System RAM	NVMe Storage	Monthly Price
Standard	12 Cores	192 GB	1 TB	**€2,300**
Balanced	16 Cores	256 GB	1 TB	**€2,600**
Performance	24 Cores	384 GB	1 TB	**€2,950**
Extreme	32 Cores	512 GB	1 TB	**€3,300**

UPGRADES, NETWORKING & SERVICES

Tailor your deployment

EXTRA NVMe STORAGE

€10 / month per 100 GB

Granular billing — expand storage as needed.

NETWORK & IPs

10 Gbps vPort — Unmetered

1× Public IPv4 included

Free IPv6 /64 on request

Additional IPv4: €2.50 / month

LOCATION

Amsterdam · Netherlands

Tier III+ datacenter with redundant power and cooling.

BACKUP SERVICE

€35 / month — includes 250 GB storage

Retention: 7 daily · 4 weekly · 12 monthly · 5 yearly | Additional backup storage: €6 / month per 100 GB

All pricing excludes VAT.

READY TO DEPLOY?
